

Сталактити

Дълбоко под земята, в тъмното,
много бавно,
много плахо
стихиите
сменят ролите си.

Камъкът тече.
Водата се вкаменява.

Любомир Николов

Stalagtites

for Klaus Post

Deep beneath the earth, in the dark,
very slowly,
very timidly
the elements switch roles.

Stone flows.
Water petrifies.

Lyubomir Nikolov (b. 1954)

*translated from the Bulgarian
by the poet's son, Miroslav Nikolov*
